

SYLLABUS

BUG BOUNTY TRAINING

PART-I

WEB APPLICATION SECURITY EXPERT

INTRODUCTION

COURSE DESCRIPTION

This training includes most advanced web application attacks, exploitation and pentesting techniques. This training will give you the ability to prepare for major bug bounty programs across the world. You will learn how to manage security exploits, find vulnerabilities and process issues, and modern pentesting tools. Hack websites, fix vulnerabilities, improve web security and much more. The ultimate Bug Bounty Hunting course will teach you how to seek and exploit application vulnerabilities using the necessary tools and techniques. This course aims to provide ethical hackers with the skills they'll need to identify and disclose vulnerabilities.

WHO SHOULD TAKE THIS COURSE?

- ✓ IT Security professionals with a technical background
- ✓ Application Developers
- ✓ Bug Bounty Hunters
- ✓ Penetration Testers

WILL I GET A CERTIFICATE ?

Once you complete Part-II and satisfy the requirements of the final practical certification test, you will be awarded “Web Application Security Expert” certificate and will hold the WASE certification.
